<b>14</b>	General Appraiser Income Approach
<b>15</b>	General Appraiser Report Writing and Case Studies

The courses that appear on the approved Qualifying Education List to meet the 2008 Criteria would meet the 2008 Criteria even if taken prior to the course actually being approved to meet the 2008 Criteria. For example, #ABA 0901-025-01 is approved to meet the 2008 Criteria. Therefore, a student who took the course at any time after the course was approved in September of 2001 as #ABA 0901-025 would be able to use the course to meet the 2008 Criteria for Basic Appraisal Principles (-01). Note that this only applies to courses that appear on the Qualifying Education list as meeting the 2008 Criteria.
